

Three Hurt In Car Accidents During Week

Teen-Ager, Four Year Old And City Woman Injured

Three people were injured, one of them seriously, in a series of automobile accidents near here during the past week.

The most seriously injured was Miss Alberta Traverses, 18, of Oakland, who was an occupant in a car driven by Martin Avilla, 20, also of Oakland when it collided with a machine operated by Richard A. Zeller, 52, of Sacramento near the west end of Donner Lake Saturday morning at 11:30 o'clock.

Zeller was traveling west and saw the Avilla car coming toward him skidding on the icy pavement. Both drivers attempted to stop but were unable to do so, the cars crashing almost head on. Both were badly wrecked.

While State Patrolmen Milford Peterson and William Gautsche were attempting to get the wreck cleared away, several other cars narrowly averted tragedy and one boy, four-year-old Dennis Condit of Oakland, riding with his parents, had his face cut when the car was wrecked in the same place by colliding with one driven by Elsie A. Weldon of Nevada City.

Mrs. Weldon said she saw the wrecked cars in front of her, attempted to stop, skidded and crashed into the Condit machine. Both cars were wrecked.

Have Good Fortune

In one of the most unusual accidents of the year, Mr. and Mrs. John Shupack of San Francisco escaped without injury when the car driven by Mrs. Shupack skidded and plunged most of the 150 feet down through the rocks near Farad Saturday evening at six o'clock. Mrs. Shupack told Sergeant H. B. Fowler and Patrolman Gautsche who investigated that she saw a truck and car parked beside the road putting on chains. She applied the brakes and the car skidded on the slippery pavement and went over the bank. The car was demolished.

COSTA-MELLON RITES HELD AT MINDEN ON SUNDAY, JANUARY 20

The wedding vows of Miss Bonnie Mellon and Sam Costa were exchanged at a ceremony performed on Sunday, January 20, at Minden, Nevada with Mr. and Mrs. James Frazier of Tahoe acting as witnesses.

The bride is the daughter of Mrs. Thomas Mellon and is a graduate of the local high school. During the early part of the war Mrs. Costa was employed in the bay district and since returning here has been an employee of the roadmaster's office for Southern Pacific here.

Cos. a son of Mrs. Samuel Costa returned after more than two years in the Navy, having spent much of the time in the Pacific area during the height of the war. Prior to that he had been a student at the Meadow Lake Union High School. He is now employed by the state division of highways. The young couple are making their home here for the present. Both are very well known in the community and are receiving the felicitations of their friends.

NORBOE RELEASED AFTER SERVICE IN PACIFIC IN WAR

Paul Norboe, former state highway patrol officer in this district, was discharged from the Army last Thursday after nearly three years of service in the Philippines and south Pacific. Norboe was a special investigator in the service and much of his work was with high-jackers and black market operators in the islands. He is working temporarily at Soda Springs.

DELANEY RETURNS TO HIGHWAYS JOB AFTER DISCHARGE

After three years in the Pacific war theaters, Willis DeLaney has returned to Truckee with Mrs. DeLaney and he has resumed work with the division of highways. DeLaney was a staff sergeant in the infantry and his last service before returning to the state was in Japan. He has been out a little over a month.

Bradshaws Leave For Capitol, South of State

Mr. and Mrs. Albert Bradshaw left Tuesday for Sacramento where he attended a sportsmen's meet. They later went to Los Angeles where Bradshaw, as president of Truckee Outdoor Sportsmen, will attend a session of the state fish and game commission.

The Bradshaws observed their wedding anniversary on Friday, January 18th.

At Auburn—

Mrs. Florence Sutton of Lake Tahoe was a recent visitor at Auburn.

.: Sun :. Beams

By WALTER M. BARRETT

One of Truckee's more progressing businessmen stood emptying his pockets of change into one of the March of Dimes containers the other day when a friend chanced by and remarked, "You must have hit a jackpot." "No," came the reply, "I've got a little girl." That was one of the most apt answers to any question that we have heard. Whether or not you have a little girl, a little boy or no children at all, we believe you will agree that every dime or dollar donated toward the fight against infantile paralysis is money well invested. Make it a point today to donate. Your dimes and dollars will help some little boy or girl become a useful citizen. You may leave your donation at the Bank of America or The Sierra Sun or just deposit it in one of the several containers about town, but don't put it off.

Division of highway officials and officials of the highway patrol are vainly attempting to put a stop to the skid chain "racket" in this area. There are many and varied ways of bilking the motorists and it seems that some unscrupulous operators are finding them all at the expense of the legitimate businessman who is in the skid chain business. Frequently we see cars going through with chains which were sold and installed at Reno. By the time driver gets to a place where the chains are required they are worn out. Then there are those who sell chains when chains are not required and others who are black marketing. We suggest that motorists patronize only the legitimate dealer when they require chains or service and avoid unnecessary expense and trouble.

DONNER, TAHOE ARE ON PARKS LIST FOR IMPROVEMENT FUND

A. E. Henning, state director of parks and beaches, is seeking a two and a half million dollar appropriation from the legislature for resumption of work on improving state park projects postponed by the war.

Among the sites listed for work under the proposal were Donner Monument, \$49,700; Tahoe Camp Ground, \$16,000; Gold Discovery Site; Old Shasta; Fort Ross; Sonoma Mission; and Calaveras Big Trees.

As to the state parks, according to Henning, most of the locations need buildings to house employees, comfort stations, water and sewage facilities, landscaping picnic units, camp units and other improvements.

The program also calls for acquiring jurisdiction over historical monuments not now included in the state park system.

P.T.A. FOUNDERS' DAY SLATED HERE FOR FIRST OF FEBRUARY

Mrs. William Englehart, Jr., publicity chairman for the Parents and Teachers association announced that on Friday, February 1, a Founder's Day program will be presented, including musical selections. Refreshments will be served at the close of the annual ceremony.

Mrs. Englehart also reported on the library meeting held on the evening of January 11 at the grammar school which was attended by a small group of interested people. Thelma Reid of Sacramento answered questions on the subject and it will be presented to different local organizations to test public interest.

During the meeting it was brought out that the grammar school has practically no library but that a list will be presented to the supervisors for purchase. It is planned to add to the library each year to benefit the children's reading in the future as well as to meet the present need in the school.

The high school is expecting to receive this week an Encyclopedia Britannica purchased from a \$50 Britton fund, Mrs. Engelhart said.

FOUL LUCK REPORT MADE BY HUNTERS; SEASON IS CLOSED

Truckee hunters are at a loss for shooting for the first time since the duck season opened last October as the season on ducks closed in California last Sunday. A few of the local nimrods including E. L. Loynd, Walt Loynd, Frank Gaiennie, Harold Langille and others visited the Sacramento valley area during the closing days but reported foul luck and returned with few birds.

MANY DEFENDANTS NAMED IN SUIT OVER SUMMIT BUS WRECK

The state, John Halbert, the Cotant Truck Lines and others are named defendants in a \$27,730.92 damage suit filed in Sacramento superior court by Delfino Rossi, bus driver, as the aftermath of a Greyhound bus and truck collision January 31, 1945, on Highway 40, one half mile west of Donner Summit Lodge in Placer county.

Local Sportsmen Oppose Changes In Fishing Laws

Prohibition of Bait Fishing, Season Changes Are Among Measures

At a special meeting of the directors of the Truckee Outdoor Sportsmen held last Friday evening prior to the departure of President A. G. Bradshaw to the meeting of the state fish and game commission at Los Angeles the latter part of this month, local action was taken on a few of the many recommendations to be decided at the Los Angeles meeting.

Many of the recommendations, according to Secretary R. N. Little, do not have any bearing on the fishing and hunting in this region and were by-passed. However, action was taken on those recommendations which were held to be detrimental to this region and Bradshaw was instructed to oppose them at the Los Angeles meeting. Among the latter were the following:

1.— Trout fishing open from June 1 to October 15. Sponsor: Porterville Fish & Game Protective Association.

2.— Trout season open streams May 30 and lakes May 1 in northern California. Sponsor: Lassen Fish & Game Conservation League.

3.— Reduce shipping of fresh water fish to two shipments (or eliminate entirely) by any licensee during season. Sponsors: Bishop and El Monte Isaack Walton Leagues, Southern Council of Conservation Clubs.

4.— Rubber boats and other pack-in boats prohibited in primitive areas. Sponsor: J. A. Loundagin, fish and game warden.

5.— Trout—close certain waters within the state to bait fishermen. Sponsor: Golden Gate Angling and Casting Club.

6.— Prohibit all live bait fishing in the state trout waters. Sponsors: Southern Council of Conservation Clubs; J. P. Cuenen, sports writer.

It was also suggested that the secretary write the Lake Tahoe-Sierra Association and draw their attention to the proposals and ask their support inasmuch as some of the changes will directly effect Lake Tahoe. The Truckee Chamber of Commerce also will be asked to lend its support in stopping passage of the proposals.

Bradshaw left this week and will be in Los Angeles to attend the meeting on January 28, 29 and 30.

HODSON PURCHASES HOUSE AND LOTS IN EAST END OF TOWN

H. H. Hodson, local plumber, has purchased the Kirchner property at the junction of the Reno and Hobart Mills highways. Hodson is renovating the house on the land and hopes to move into it in the near future.

Two other houses located on the property involved were recently destroyed by fire and will be cleaned up, according to the new owner.

FISH, GAME PATROL WILL BE REVAMPED SAYS DIVISION BOSS

SACRAMENTO—A general reorganization of the state division of fish and game, bureau of patrol and law enforcement, said Emil J. N. Ott, Jr., executive secretary of the division, but at the present time no position for fish and game wardens are open.

The bureau's personnel setup has positions authorized for 108 fish and game wardens, 12 assistant wardens, and one pilot warden. Thirteen permanent wardens are on military leave and 12 of their positions are filled by duration employees. One position, now open, is to be filled by a promotional examination for assistant wardens.

All assistant warden positions except for the 12 permanent positions, are filled on a seasonal basis by employing men under temporary civil service authorization to assist in numerous duties of the division's six bureaus, such as sardine checking, game farm assistants, fish counts, game refuge work, etc.

Tuesday Bridge—

Mrs. R. N. Little entertained several friends at a bridge party Tuesday afternoon.

Bridge Club Meets—

A group of friends were guests of Mrs. A. P. Leitch on Wednesday when they met for an afternoon of bridge.

Passengers Sustain Minor Injuries As Greyhound Wrecks

Cut Over Right Eye Most Serious Injury In Accident

Eleven of 28 passengers on a Pacific Greyhound bus which turned over near Donner Lake four miles west of Truckee at 6:20 last night sustained minor injuries with no one being seriously hurt.

A few moments before the east bound stage arrived, a tow truck operated by Harold J. Hancock, 35, of Truckee was trying to remove the car of Willard F. Sea, Berkeley, from a snow bank. An automobile driven by Percy Samuel Meaney, 59, Nevada City, had stopped in the opposite lane momentarily when the big bus came on the scene. Gene Jackson Salmon, 41, driver of the bus, tried to avoid a collision, clipped the Meaney car and skidded off the road, turning the bus on its side.

Most seriously injured was Ruth Barnard, 34, of Boise, Idaho, who suffered a deep cut over the right eye. Others injured beyond bruises were Lester Barnard, Boise; Mrs. Isabel McCoy, Boise; James B. Cooper, Sacramento; Claudia Hilton, Sacramento; Thomas J. Gottwald, Defiance, Ohio; Clarence J. Browning, Babbitt, Nev.; Fay Smith, Reno; Alice Johnson, Reno; Stephen Betts, Oakland, and James Betts, Oakland. All the injured were brought to Truckee for examination and treatment by Dr. J. H. Bernard.

Officers of the state highway patrol had the road clear for traffic within 20 minutes after the accident. Sgt. H. B. Fowler, with Patrolmen Kenneth Kolb, T. F. Sheehan and William Gautsche, conducted the investigation.

OFFICER TRAINING IS URGED BY SHERIFF AT ROTARY SESSION

Sheriff Carl Tobiasen of Nevada county advocated a training program for peace officers prior to their taking up their duties. He also described the most notorious murder case that has come under his jurisdiction and told of the difficulties in tracing down and convicting the Newman brothers. Tobiasen was guest speaker at the Rotary Club Monday night.

Howard Mahurin, recently with the armed forces in the Pacific and now with the Truckee-Tahoe Lumber company at Tahoe City, was a guest. Art Couillard presided and William Myers was program chairman.

Secretary Hobart Snider announced that he had been able to get three reservations for the Sacramento Rotary Club meeting January 30 at which Rotary International President Tom Warren of England will make his official visit to California.

COUNTY FAIR AGAIN IN AUGUST AFTER SUSPENSION BY WAR

GRASS VALLEY—Nevada county will resume her annual 17th District fairs, interrupted by the war, on August 16-18.

Watt Park, according to Loyle Freeman, fair secretary, will be extended from its present area of 15 acres by the acquisition of 55 acres adjoining, chiefly from the Alderman and Pascoe ranches.

The park was set aside for county fairs and horse racing in 1883 and the following year there began a long series of fairs, horse shows, racing and exhibits of farm products and livestock.

Surveys soon are to be made for the use of architects in planning a long range construction project for building.

Former Floriston Girl Report Nevada Bride

Mrs. Gino Gini of Reno entertained last week at a wedding shower for her sister, the former Laura Angelini, who was married in Nevada two weeks ago, according to reports.

The bride is a former Floriston girl and attended local schools before going to Nevada. No details of the wedding were immediately learned.

On Vacation—

Jerry Zunino, local shoe repairman, is enjoying his annual vacation in San Francisco and other bay district places. He plans to re-open his shop in the middle of February.

Utility District Is Debt Free, Bonds Paid Off Early

RATES REDUCED BY 35 PER CENT, NO TAXES NEEDED TO RETIRE BONDS 3 YEARS BEFORE MATURITY DATE

The directors of Truckee Public Utility District, consisting of C. E. Smith, chairman; E. L. Loynd and A. Pace announced this week that with the beginning of the new year, the district paid off the last of its outstanding bonds, issued in 1928.

While the last bond was not due until January, 1949, the district from its surplus in recent years had, with the cooperation of the holders of the bonds, been able to retire an additional bond each year, thus wiping out its bonded indebtedness three years ahead of schedule.

Smith, who has been chairman of the board of directors since its inception in 1927, stated: "The early life of the district was beset by many legal difficulties and there were those who, lacking the vision, fought the formation of the district and the issuance of bonds. The opposition predicted dire financial troubles would beset the district with the result that high taxes would be levied on the property holders, but the faith of those who in 1927 fought and worked for the formation of the district has been more than justified—and no taxes have ever been levied by the district."

"In addition to paying off its bonded indebtedness," Smith continued, "the district has reduced its rates over 35 per cent, has invested over \$12,000 in acquiring a water system serving the major part of the town, has invested \$4,000 of its surplus in war bonds, has provided Truckee, without cost to the inhabitants, with the best street lighting system in the state for town of its size, has contributed liberally to various public projects, has invested \$5000 in assisting the town to obtain recreational facilities and has over \$7000 cash on hand."

"Many extensions, additions and improvements have been made in our electric distributing system since the initial bonded investment, until today the district's electric system has a value well over 50 per cent more than its original bonded worth and in addition has other assets totalling more than the original bonded indebtedness of \$20,000 which was voted to start the district in the electric distributing business back in 1927."

"The district is constantly endeavoring to reduce its rate and studies are now underway to determine what further reductions may be made, consistent with the advancing costs of operation," the statement concluded.

During the last year 139,048 cars less trucks, locals and stages came into California via U. S. Highway 40. It was stated they carried 380,857 passengers. In 1945, 12,031 commercial trucks cleared through the Truckee quarantine station.

In the number of stages Truckee held the lead in the state, though Blythe admitted more stage passengers. Through here 5,714 stages carrying 171,331 passengers entered the state.

Brookway, which opened on June 4 and closed November 10, 5,251 cars with 14,076 passengers were accounted for. At the Stateline station at south Tahoe 9,891 cars entered with 28,858 passengers.

For the entire state, 1,022,408 cars less trucks, locals and stages were counted along with 35,835 buses. A total of 3,878,127 passengers in these two categories entered California in 1945 through the stations.

TEN DAYS REMAIN TO AVOID PENALTY IN AUTO REGISTRATION

Only ten days left in which to apply for your 1946 motor vehicle registration renewal! After that you pay double.

This warning came today to local motor vehicle owners from Gordon Garland, director of motor vehicles.

And Garland added that vehicle owners of this area who have done so should go to the nearest office of the department of motor vehicles at once before a final rush and apply for 1946 registration renewal. To do this they will present the 1945 registration card—white slip—and the amount of the fee as shown on the lower left hand corner of the card.

If impossible to make a trip to the nearest office, renewal may be had by mail by forwarding the white slip and a bank, postal or express money order or certified check for the amount of the fee to Sacramento or the nearest certificate issuing office of the department. Such applications will be honored if post marked no later than midnight of February 4th.

Patrolman Is Discharged After Air Forces Service

John Stinton is the third member of the California Highway Patrol to return to the Placer county unit after discharge from the armed forces. He served with both the Royal Canadian and U. S. Army Air Forces during the war. Before enlisting, Stinton was assigned to the Truckee area. Last week he began his duties with the patrol and is stationed at Colfax.

Mr. and Mrs. H. H. Hull, former Tahoe couple, wrote this week that they sold one home in Sacramento and purchased another in the same vicinity.

Goes Below—

Mrs. Dan Smith is in Roseville and Palo Alto this week.

A brief discussion of the public library project featured the meeting of the Truckee Lions Club last night. The Lions investigating committee on the library was discharged. Fred Rost of Tahoe was a guest and C. B. White presided.

North Tahoe News . . .

by MADELINE GALLERANI

Mrs. Bob Eddy of Kings Beach returned on Sunday from Long Beach where she'd spent two weeks undergoing medical treatment.

Mrs. Lloyd Decker and children arrived in Kings Beach last week from Everett, Washington, to join Mr. Decker, recently discharged, spent seven months in the army.

John Rondelli of Crystal Bay underwent a minor operation on Saturday at the Washoe General Hospital in Reno.

Mr. and Mrs. John Lauthern of Tahoe Vista motored to Missouri to be at the bedside of Mrs. Lauthern's aged mother who is seriously ill.

Mrs. Carl Sorenson of Tahoe Vista who had been reported on the way to recovery suffered a relapse. Dr. J. H. Bernard of Truckee is attending her.

Mr. and Mrs. Bill Beers of Crystal Bay recently returned from a month's vacation spent touring in the middle western states. Mrs. Beers purchased many articles to add to her large collection of antiques, which she has for sale at her unique shop in Crystal Bay.

Harry Chanison, Kings Beach postmaster, is spending a few days in Pasadena.

Mr. and Mrs. Noel Hulbert and children of Waimar visited on Sunday with Mr. and Mrs. J. J. Mandeville of Kings Beach.

Mr. and Mrs. Robert McCormack of Reno are now residing in Kings Beach.

Harvey Martin of Oakland is now residing at the home of his uncle and aunt, Mr. and Mrs. Andy Sorenson in Tahoe Vista.

Mr. and Mrs. Eugene Dertinger of Reno and summer residents of Kings Beach have sold their home in Reno and purchased a 120 acre ranch in Fallon. They will retain their summer home in Kings Beach and plan to spend as much time as they can there.

Mr. and Mrs. Bert Cochrane of Kings Beach left last week end on a month's vacation to visit relatives and friends in New Hampshire.

The first telephone exchange in any foreign country was installed in London in 1879, with Samuel Insull as the first telephone operator and George Bernard Shaw one of the employees.

QUOTES OF THE WEEK

"Lincoln freed the slaves. Who will free us?"—*GIs in Manila, demanding demobilization.*

"We're friends—but not that friendly."—*Col. "Pappy" Boyington, denying intent to wed Reno woman.*

"Their purpose is to destroy democracy, set up a godless, totalitarian state."—*FBI Chief J. Edgar Hoover, re Communists in U. S.*

"Unless we get production quickly we're either going to have a bad deflation or a real, extreme inflation."—*U. S. Senator Homer Capehart, Ind.*

"It's an attempt to rob men of their freedom."—*Pres. William Green, AFL, on proposed fact-finding law.*

"There's not 30 cents' worth of cotton in a \$3 shirt."—*Rep. A. S. Camp, Ga., protesting proposed OPA price ceiling on cotton.*

El Dorado Museum Is Old Blacksmith Shop

January 24 is the 98th anniversary of the discovery of gold at Coloma which began the famous California gold rush. The discovery was made on the property of Captain John A. Sutter by James W. Marshall. Marshall's blacksmith shop at Kelsey in El Dorado county has been restored as a Pioneer Museum. The shop is at Marshall's Gray Eagle Mine and was built in 1872.

Point Lobos is the northernmost habitat of the brown pelican and the southernmost habitat of the Monterey cypress.

Spare the Goose That Lays the Golden Eggs

CAPITAL WEEK

BY UNITED PRESS

SACRAMENTO, Jan. 24 (UP)—The first round of the legislative battle over state funds was over this week with advocates of a \$90,000,000 aid plan for cities and counties holding the upper hand.

The bill was passed by a 10-sided 65 to 12 vote in the assembly and its passage by the senate, with some changes, seemed assured. It was a moot question in capital circles this week when Governor Warren, who has consistently opposed the measure, would veto it.

Under terms of the measure as it passed the assembly, the \$90,000,000 would be divided equally between cities and counties. Cities would have to put up only 25 per cent of the cost of approved projects. No county could get less than \$50,000.

Counties would have a little more leeway, with court houses, jails and other public works eligible for the grants. However, \$15,000,000 of the county share would have to be used on roads. Poorer counties would have to put up only 25 per cent of the cost of approved projects. No county could get less than \$50,000.

Although there appeared to be votes to spare for senate approval of the \$90,000,000 grant, debate was expected over some provisions. Sen. Ben Hulse, R., Imperial, who was a leader in the same fight a year ago, wanted to give smaller counties a minimum of \$100,000 and Sen. James Mayo, R., Angels Camp, wanted to set the minimum at \$144,000.

Also passed by the assembly was the governor's \$154,000,000 state construction measure. However, this represented only a qualified victory for the governor. As passed, the bill takes \$34,000,000 from the general fund, instead of from the \$90,000,000 as Warren wanted and passage of the two bills leaves little money apparently for other uses.

ALMANAC

JANUARY

- 22—British cabinet shift—MacDonald named Prime Minister, 1924.
- 23—First Philippine Republic is constituted, 1899.
- 24—Return of A.E.F. from Europe is completed, 1920.
- 25—Scottish poet, Robert Burns, is born in Ayr, 1759.
- 26—Khartoum is captured from British by Mahdi army, 1885.
- 27—Leningrad is cleared of Nazi armies, 1944.
- 28—Adolf Hitler becomes chancellor of Germany, 1933.

The governor's bill also appeared to be headed for trouble in the Senate. Amendments were proposed in the upper house to tie down the money for specific projects, instead of making the appropriations general. \$57,000,000 for institutions, \$30,000,000 for the University of California and so on.

Sen. George J. Hatfield, R., Merced, who proposed the amendments said he wanted to get specific projects into the bill so that he could attack some of them.

He criticized particularly a \$48,000 residence for an institutions superintendent, a \$90,000 hog farm and \$35,000 institutions barbershop.

Meantime, Warren took the opportunity at a press conference to criticize the assembly action. He declared he believed the legislature should act on emergency housing plans before doing anything else.

"It's disquieting," he said, "to feel that there is no more interest in the legislature than has been shown in the past two weeks. I think it must be awfully cold these nights for those people who are sleeping in automobiles."

He also indicated he believed the legislators should "make some decisions as to how much we have to spend for all purposes" before passing the public works bills.

A defeat for another Warren.

Vets Administration Puts New Benefits In Action

WASHINGTON—Orders to have all of The American Legion sponsored amendments to the GI Bill of Rights in full force and effect by March 28 have been laid down for all his staff by Omar N. Bradley, administrator of veterans' affairs.

The date conforms to the 90-day deadline set by Congress for putting the changes into effect following their approval by President Harry S. Truman.

Some of the changes have already been put into effect but others must wait upon new regulations and for new forms and procedures," General Bradley said.

"We need not wait to raise the loan guarantee from a maximum of \$2,000 to a maximum of \$4,000 and we are not waiting. We are also wiping out the 25-year age factor in educational requirements immediately, making loans on approval of VA appraisers, paying the increased subsistence allowance of \$90 and \$95 a month and we are granting benefits to Americans who fought in allied forces."

The two major benefits which the VA may not be able to put into effect until March 28 are inclusion of correspondence schools under the educational title of the bill and approval of business loans for working capital and operations, General Bradley said.

Local Snow Area Featured

The January 9th issue of The Christian Science Monitor, international daily newspaper published in Boston, Mass., was a descriptive article on snow and skiing conditions in the West. Particularly mentioned were Soda Springs, Beacon Hill, the Sugar Bowl and Norden, all in this district.

2971 HANDICAPPED AIDED TO JOBS BY STATE PROGRAM

SACRAMENTO, Jan. 24 —(U.P.)— The state department of education in a report to the governor's council disclosed that 2,971 physically and mentally handicapped men and women were rehabilitated for employment last year.

Those who found employment after the training program were handicapped from amputations, congenital deformities, and crippling illness. Their average individual earnings were reported by the department to be \$184 a month.

In his appeal for full support of the March of Dimes appeal now in progress, President Truman said: "There can be no slow-down in the fight against disease." Join the March of Dimes today.

NOTICE OF SPECIAL ELECTION

NOTICE IS HEREBY GIVEN by the Board of Directors of Truckee Public Utility District that a special election has been called by the Board of Directors of said district, to be held on Tuesday, the 5th day of February, 1946, in the territory hereinafter described of the territory proposed to be annexed to Truckee Public Utility District, subject to the conditions hereinafter set forth:

That said territory proposed to be annexed is described as follows:

All that territory lying within the following described bounds outside the bounds of the present District and contiguous thereto, starting at the South corner common to Sections 16 and 17, Tp. 17 North, Range 17 East; thence Northerly along the section line common to Sections 16 and 17, Tp. 17 North, Range 17 East, 21,120 feet to the corner common to Sections 28, 29, 32 and 33, Tp. 18 North, Range 17 East; thence Westerly along the section line common to Sections 29 and 32, 36,960 feet to the section corner common to Sections 29, 30, 31 and 32, Tp. 18 North, Range 16 East; thence Southerly along the section line common to Sections 31 and 32, 21,120 feet to the section corner common to Sections 17 and 18, Tp. 17 North, Range 16 East and the Nevada - Placer County Line; thence Easterly along the said Nevada-Placer County Line 36,960 feet to the point of beginning; all of which territory lies within the boundaries of Nevada County, State of California.

That the conditions under which said territory is proposed to be annexed are as follows:

(a) The territory to be annexed and the property therein shall not by reason of its annexation to Truckee Public Utility District, be liable for any assessment or tax to pay the now outstanding indebtedness of Truckee Public Utility District, or any part of said outstanding indebtedness, bonded or otherwise, the authority of the Board of Directors to base the rates of its public utilities throughout the District as enlarged in accordance with the financial conditions and needs of the District remaining unimpaired;

(b) Any extension of public utility service or works into the territory annexed shall be made only upon the consent of and approval by the Board of Directors of the District as being feasible; and the Board of Directors may contract with the person or persons asking for such service and the owner or owners of the land that would receive or be benefited by such extended service or works, requiring such person, owner or owners to bear a just portion or all the expense of the construction and/or maintenance of such extension and if desirable requiring that such person, owner or owners transfer to the District, without charge, any necessary or convenient lands, easements and/or rights of way;

(c) The Board of Directors shall have the right in its administrative discretion to fix, determine and enforce from time to time special rates for public utility service applicable to said territory to be annexed that shall not be applicable to such public utility service in the territory now within the District.

That at said election the polls will remain open from 1:00 o'clock p.m. to 6:00 o'clock p.m.;

That at said election all electors who were registered electors of the territory proposed to be annexed on the 21st day of August, 1945, and who at the time of said election are still electors of the territory proposed to be annexed, are qualified to vote at said election;

That at said election there will be one precinct, consisting of all the territory proposed to be annexed to Truckee Public Utility District, and there will be one polling place, which will be at State Quarantine Station, Reno Road, Route 40;

That at said election there will be one Inspector, one Judge and one Clerk of said election.

Board of Election
F. F. Kearney, Inspector.
Blanche M. Gage, Judge.
Alys Brown, Clerk.

To vote at said election in favor of the annexation of the territory proposed to be annexed to Truckee Public Utility District, stamp a cross on the ballot following the words "For change of boundary." To vote against the annexation of the territory proposed to be annexed to said District, stamp a cross on the ballot following the words "Against change of boundary."

The foregoing notice is given pursuant to order of the Board of Directors of Truckee Public Utility District.

BOARD OF DIRECTORS of Truckee Public Utility District.
Jt. 17, 24, 31 By C. Edmunds, Clerk

SMATTER OF FACTS...

Doe Killers In South Get Stiff Fines, Jail Terms

SACRAMENTO, Jan. 24 —(U.P.)— Taking a female burro deer cost three Riverside county hunters \$100 and the threat of a 150-day sentence in the county road camp, the state fish and game division said today.

James Bell, Remond McIntosh and Carl Cagle, all of Blythe, received suspended sentences, to be served if they are convicted of further fish and game code violations during a two-year probationary period.

Siskiyou County Game Fines Go To Sports

SACRAMENTO, Jan. 24 —(U.P.)— Siskiyou fish and game projects will get a financial lift this year in the form of a fifty per cent grant of all fines collected by game law violators. It was voted recently by the county supervisors.

The Skyline Boulevard in Oakland was called by Baedeker "one of the three most beautiful drives in the world."

What All Drivers Should Know

Prepared by the
Department of Motor Vehicles

NOTE: These questions are official and the same you are asked when you apply for your driver's license. Test your knowledge by marking yes or no in the space at the end of the line. Correct answers follow:

1. If you have an accident that causes property damage or personal injury and you fail to stop, may you be charged with hit and run?.....
2. May you legally stop at a red curb long enough to bet out and mail a letter?.....
3. Must your car have two headlights and one tail light lighted whenever you drive at night?.....
4. May you cross to the left side of the highway to pass another car if there is plenty of clear straight road ahead and no double line divides the highway?.....
5. Must you signal your turns even when there are no cars behind you, if cars are coming toward you from the slues or in front?.....
6. Are you breaking the law and making an accident possible if you cut the corners on a left turn?.....

ANSWERS

1. Yes. The driver of any vehicle involved in such accident must stop immediately at the scene of the accident and fulfill the requirements of Section 482 by giving full information and rendering aid if necessary. Failure punishable by severe penalties.
2. No. This is governed by local parking regulations and red indicates no stopping, standing or parking whether the vehicle is attended or unattended.
3. Yes. Also the same regulation applies at any other time when there is not sufficient light to clearly see any person or vehicle on the highway at a distance of 200 feet.
4. Yes. But in every event you must

return to the right hand side of the roadway before coming within 100 feet of any vehicle approaching from the opposite direction.

5. Yes. You must always signal your turns during the last 50 feet before turning, in the event any other vehicle may be affected by such turn.

6. Yes. Approach for a left turn must be made in that portion of the right half of the roadway nearest the center line and after entering the intersection you may proceed to turn as directed and required by markers, buttons or signs.

STATE'S TEACHERS INCREASE NEARLY TWICE IN 4 YEARS

SACRAMENTO, Jan. 24 —(U.P.)— In the last four years the number of teachers in California schools has almost doubled, the state department of education stated.

In a report to the governor's council, the department said that for the year 1944-45 a total of 26,154 teachers were issued certifications. During the year 1940-41 there were 14,741 issued.

THE YEAR-ROUND DRINK...

Winter sports, interrupted by the war, are in full swing again... more popular than ever before. Popular, too, with winter sportsmen (and sportswomen!) is Acme, the beer that's deliciously refreshing any time of the year.

TAHOE LANDS TO GO ON BLOCK AT TAX AUCTION ON FEB. 8

AUBURN—County Tax Collector Lou P. Mohan of Placer county announced this week that there an auction sale of tax delinquent property next month in Auburn. The sale will begin at one p.m. in Mohan's office in the court house at Auburn on February 8th. Terms of the sale are cash in lawful money of the United States or negotiable paper.

The largest part of the land available is located at Lake Tahoe although some property in the western portion of the county is included.

Minimum bids on the property—in line with tax delinquencies—will be from \$20 to \$185.

In the Tahoe area Woodvista tract has 13 parcels on the block; Tahoe Vista tract, seven; Brockway Vista tract, nine; Carnelian Bay tract and Tahoe-Truckee Forest tract one each. The Brockway Land and Water Company was listed as the "last assessee" on the bulk of the Tahoe property.

The March of Dimes is not charity. It's insurance. The National Foundation is pledged to provide care for all victims of infantile paralysis, where financial aid is needed, without regard to race, creed or color. Insure your children and your neighbor's children with a contribution to the March of Dimes appeal, now in progress in this area.

TAHOE BRIEFS

The lake level on Monday morning stood at 6227.39 with 51 CSF of water leaving the gates in town. Snow on the ground measured 30 inches in town but in outlying districts south of town the depths run much greater, with drifts of six and seven feet. Precipitation for the past week was .08 of an inch. Coldest day of the past week was on the 20th with 11 registered and warmest was on the 18th with 46 degrees.

Mr. and Mrs. Allan Pollitt and daughters Alberta and Myra Lee left Tahoe on Friday morning for San Francisco. They will remain indefinitely. On Thursday evening Alberta was a dinner guest at the Charles Swanson home in Sunnyside.

Mr. and Mrs. Leon Dockham and sons Robert and Clifford returned last week from a vacation of a little over two weeks, during which time they visited in numerous California towns with relatives and friends.

Stricken with polio, what chance does your child have for recovery? Of all persons struck by polio it is estimated that 50 per cent recover completely; 25 to 30 per cent show slight residual paralysis; 15 to 20 per cent show marked residual paralysis and 5 to 10 per cent die. The battle against infantile paralysis is not yet over. Give generously to the March of Dimes appeal.

Street lighting by electric arc lamps was introduced in 1879 when Cleveland illuminated its Public Square.

TAHOE LETTER To The Servicemen

From SWANEE

Tahoe City, California.
January 20th, 1946

Dear Tahoeites:

Another Sunday rolls around and with it good weather and sunshine. On Saturday several inches of snow fell and today some of it still clings to the trees. Snow banks along the highway remain from five to seven feet high out our way and roads are clear and in good shape, although care is advised on icy stretches.

So mild has been the weather during the past week or ten days that the pussy willows are budding along the river and in sunny spots along the highway. They're due for a rude awakening when our lovely false spring again turns to blizzardy winter!

Today marks the close of duck season at Tahoe and it has been a disappointing one for local hunters, for scarcely a duck has been seen for weeks at a time and old timers regard it as one of the poorest for many years. Freezing weather and early snow that covered up the feed in the ponds are the reasons.

Was pleased last week to receive a card from Pvt. Dick Hinkle, son of Dr. and Mrs. George Hinkle, now residing in San Francisco during the winter school vacation season. Dick is anxious to have son Jimmie's address which I will be glad to send along. He is no longer stationed on the training ship Idaho but is waiting transfer to another ship. He promises to write more again soon. Please do, Dick!

From down across the border in old Mexico I had a gay picture postal from the meandering Ben Callenders who are vacationing in a leisurely manner. They found snow in sunny Mexico and cold weather but were hoping to find some sunshine in which to bask in Florida. Oh, those lucky people.

Got a swell four page letter from our old neighbor, Captain Hans Hansen, now taking life easy in Santa Cruz with his two pets, Rollo and Rosie. He's been enjoying a real vacation and divides much of his time between Burlingame, Watsonville and Santa Cruz, having many friends in the peninsula area. He's been doing some work on his new home, too, although orders on new materials are a bit slow coming through. He was planning on motoring to San Francisco and Oakland over the week end to visit. His friend Canton Iverson has a good job in the city and Hans too was offered a fine position but turned it down as he still has work which he wants done on his home. Much of his time is spent on the beach and the west cliff drive with his dogs who love the ocean and the seashore almost as much as Hans does. Nor do I blame them, for much of my childhood was spent in old Santa Cruz and my memories of the old Sea Beach Hotel, the board walk and even of John Philip Sousa leading his marvelous band down Pacific Avenue are clearly vivid today.

One family that is happy to have the war behind them is that of the Robert Pomlins. Bob is back home again and discharged from the service, much to the relief of his wife Violet. Was more than pleased to read on the back page of the Sun last week about Bobby Wetzel, now 21, who was blinded in action while fighting with the mountain troops in Italy. Bobby and his brother Gerald were members of the Shasta Snowmen way back some eight or nine years ago when I was covering ski meets for UP. The youngsters, then about 12 and 13, came to Cisco Grove early and practiced untiringly for hours before the events started, and took home plenty of honors for their team. I took their pictures then and they, with an article about them, came out in bay area papers. Somewhere I still have the letter of appreciation Bobby wrote me in return for the clippings, and today, with his sight gone that letter means more than ever to me. Being able to ski again, with his brother's aid, must be a thrill that only a lad or lassie whose winters of skiing were a part of their youthful existence, can understand and appreciate. And who knows, but on some distant date Bobby may even again share the rewards of competition with the Shasta Snowmen? Stranger things than that have happened!

Son-in-law Billie Steenis has finally arrived at this new camp, the Fifth Depot at Manila, and finds it even more unattractive than the one he just left. His last letter was written just after having completed almost 26 hours of guard duty, something he had been able to avoid previously because of his job on the switch-

board. His new camp hasn't even wood floors in the tents, only dirt, and there is no electricity in his tent—has to write by candle light. The place is described as a mess—and the food is okay—lay. He wishes now that he was right back at his old quarters in the 21st Depot—where life was much simpler.

Have a letter from the Earl Walkers of Timberland and Santa Barbara who write of sunny days and china lilies blooming and daffodils on their way. They are still enjoying their Sierra Sun and are looking forward to spending the whole summer at their Tahoe summer cottage on the hill.

R. T. Norman Dewhurst and wife Mary Jane motored to Tahoe on Friday for a few days vacation at the home of her parents, the Henry Solls of Tahoe Pines. Dewy left on Sunday evening to return to his base at Treasure Island and his wife is remaining to visit here. He hopes for a discharge from service within a few months.

Latest word from honeymooners, Lieut. and Mrs. Lyman William Griswold was from Joe Henry's home state, West Virginia, and they were planning on a week or more in Washington, D. C., where Pat and hubby hoped to sit in on a session of Congress and make a thorough tour of the capitol's interesting spots.

The A. M. Henrys take off on Tuesday, January 22, for an extended vacation while Al Henry takes care of shop for them. They plan to take a leisurely motor trip to Las Vegas, Tucson, and numerous other cities and towns in southern California and the bay area, making a round of

Chief of Staff Dwight D. Eisenhower endorses the March of Dimes conducted January 14-31 by the National Foundation for infantile Paralysis as a "fighting tribute" to the memory of Franklin D. Roosevelt. Said General of the Army Eisenhower:

"There will be no question of the response from every American who understands the urgency of the appeal. In our country infantile paralysis remains as one of the scourges that we must strive to eliminate, and I am certain that the fighting services and all veterans and civilians will unite in helping to defeat this enemy just as they did in gaining the victory over the Axis in the field."

visiting their numerous friends of long standing. Among those whose homes they will visit are Mr. and Mrs. Horace Johnson, who were former caretakers at the Donar estate here, now living in Tucson. The Johnsons' son, Duane, well known here, is still in the signal corps in Brazil. Joe's brother and wife, Mr.

board. His new camp hasn't even wood floors in the tents, only dirt, and there is no electricity in his tent—has to write by candle light. The place is described as a mess—and the food is okay—lay. and Mrs. T. S. Henry of Rosemead, southern California, are also on the list of those to be visited.

The Charles Hellers write friends here that they hope to have their new grocery in Sacramento open for business by March 15 and extend a cordial invitation to all their Tahoe-Truckee friends to stop in and see them when down that way. They'll be located at the corner of F and 42nd Streets.

Son Jimmie has certainly enjoyed the marvelous weather which has been our lot during his visit home, but one Wednesday morning, January 23, he must again leave us and return to duty. His new destination will be Greensborough, N. C., and it will not be very long thereafter before his ETO shipping orders will be placed in operation. Wonder how many months it will be before he will again join our family circle.

Leave you for another week and am happy so many of you boys are getting back to civilian life and in good shape. Hope industrial peace will soon be accomplished and the world can again return to normal. Our very best wishes for happy, prosperous futures is extended to you all. May good luck await you just around the corner, and to those of you not yet home, may God be with you today and always.

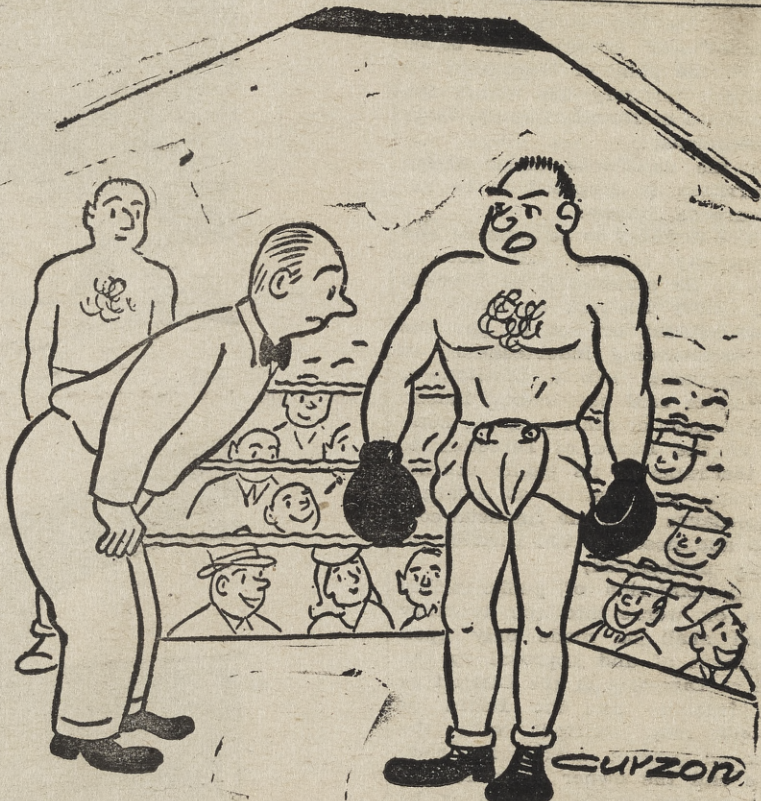

As ever, SWANEE

Among those who, like Franklin D. Roosevelt, refused to be conquered by infantile paralysis are: Dinah Shore, stage, screen and radio star; Doris Hart, champion player of ship tennis, and Mayor Lyle J. Goodwin of Malcolm, Iowa.

Cold Hands.. Warm Heart

There's no room for cold hands in a world of warm hearts. Your spare clothes—gloves, coats, shoes, etc.—are desperately needed. Dig them out today.

**VICTORY
CLOTHING COLLECTION**
for Overseas Relief JAN 7-31

"My wife donated all our clothes to the Victory Clothing Collection, except the baby's diapers."

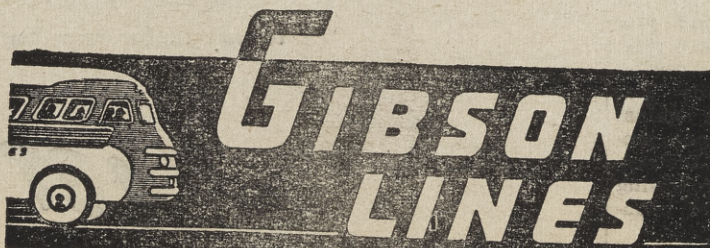

We would like to bring our service to you

Every day GIBSON LINES buses pass through your community at very convenient traveling times for you, but under existing conditions we are not permitted to carry local passengers . . . much as we would like to. Realizing the benefit to you and your community of additional transportation, we have recently made application to the Railroad Commission of the state of California to bring our bus service to you.

GIBSON LINES buses are now operating on Highway 40, between San Francisco, Oakland, Sacramento and way points to Reno. We would like to be able to stop for you and take you where you are going, but we are not permitted to take passengers from your community whose destinations are within the California State Line.

We recently purchased an old established bus line operating between Sacramento and Reno and would like to complete service in this section as well as in some other parts of the valley, and to also open up our service to San Francisco and the Bay Area.

This additional transportation will mean much to the upbuilding of your community and the entire area through which we operate, therefore, your support of our application is to your best interests. It is a part of our proposal to bring more adequate transportation to Northern California, and your assistance will be appreciated.

CHIEF U. S. FOREST OFFICIAL VISIONS NEW 6 YEAR PLAN

..Around 2,500,000 new and permanent jobs can be created if the United States carries through an adequate nationwide forestry program, Lyle F. Watts, chief of the federal forest service, told Secretary of Agriculture Clinton P. Anderson in his 1945 annual report released this week.

Watts said that at present the nation's forests directly or indirectly provide about 3,750,000 jobs, but that if the productivity of our depleted forests and run-down ranges were restored, and if other resources of the forests were fully developed, the employment figure might be increased by 2,500,000 jobs to a total of 6,250,000 jobs. Such a nationwide program of public and private forest work would keep almost 350,000 men busy for about six years.

The chief forester warned, however, that "we cannot build up forest productivity so long as destructive cutting practices are prevalent." He advocated a comprehensive forestry program, including nationwide regulation of timber cutting and related forest practices as assurance that the nation's forests shall be kept reasonably productive; public ownership of millions of acres which private owners find unprofitable to hold or on which watershed, recreation or other public interests outweigh the interest of a single owner, and increased government assistance to private forest owners.

Breakdown of the 350,000 man forest work program shows that if work of the kind carried on before the war by the Civilian Conservation Corps were resumed, about 163,000 new jobs could be set up in the woods without delay. Confined largely to the publicly owned federal, state and community forests, though including some protection work on privately owned land, this part of the overall program would cost about \$2,215,000,000 over the six year period.

The vastness and variety of forest services and benefits was mirrored in the scope of the work needing to be done on publicly owned forest land. Said the report, "it would involve building a network of forest highways; providing access to undeveloped areas through the construction of forest roads and trails; expansion of facilities for fire protection; tree planting; thinning, pruning and improvement work in young timber stands; range improvement; upstream work to reduce floods; recreational improvements and other types of work."

But the volume of essential public forest work could be greatly expanded "if land now largely useless and idle" were purchased from private owners and restored to full production by reforestation and improvement. Here, declared the report, 30,000 men could be employed for six years at a cost of \$500,000,000. An even larger backlog of useful work was seen in the job of rehabilitating rundown, privately owned forests and of planning thousands of miles of shelter belts on the great treeless plains west of the Mississippi. Such private work, according to the chief forester, would employ almost 150,000 men for 6 years, cost \$2,350,000,000.

The types of permanent employment that would be increased for the future by the six year work plan consists principally of jobs in the woods, such as cutting and hauling timber, caring for new forests, manning lookout towers, maintaining roads, trails or recreational facilities, or herding cattle on the range. Also work in the processing of raw forests and range material, such as jobs in sawmills, chemical works, pulp and paper mills, box and furniture factories and other wood using industries, in the transportation and distribution of forest and range products, and in serving hunters, fishermen and other outdoor recreation seekers.

The estimate of lumber needed for domestic consumption in the next ten years will average 33 billion board feet annually, an amount equal to wartime demand, coupled in the report with the statement that wartime timber cutting and losses by fire, insects and disease were about 50 per cent greater than annual timber growth. Forest depletion today is so serious that positive action to increase growth is imperative if future employment in forest industries is not to be jeopardized by lack of raw material.

The report noted that while marketing of cattle during 1944 was at an all-time high, there were 1,228,000 more cattle in the western states in 1945 than in 1934, when drought necessitated federal buying of more than 7,000,000 head to cut starvation losses and avoid the ruin of thousands of producers. On the basis of these facts, stockmen were warned "to look more closely at their individual range and livestock situations in order to make sure that there is a proper balance between forage, feed supplies and livestock numbers."

Wood requirements for pulp and paper are expected to remain at levels far above pre-war production, with anticipated demand for domestic pulpwood at 14.5 million cords annu-

JORDAN ANNOUNCES FILING TIMES, FEES FOR PRIMARY VOTE

SACRAMENTO—Frank M. Jordan, Secretary of State, today announced the first day for candidates to file for the forthcoming primary election June 4 would be March 6 and the last day March 28.

At the same time Jordan announced the filing fees for various offices together with the number of sponsor signatures needed.

A filing fee of \$200 for each party and 65 to 100 sponsor signatures are necessary for the offices of governor, lieutenant governor, secretary of state, controller, treasurer and United States senator. The superintendent of public instruction, a non-partisan of-

ally. Since it is doubtful if imports of paper, pulp and pulp-wood—which before the war accounted for more than half of the paper consumption in the United States—will ever again exceed pre-war levels, this means another enlarged wood requirement that must be met by America's shrinking forests.

Announcement was also made that within the next 15 years the forest service aims to plant 2 1/2 million acres of denuded land in national forests.

ROOSEVELT BIRTHDAY STAMP . . . A new five-cent stamp in the Roosevelt memorial series, with an issue date of January 30, the 64th anniversary of the birth of the late Pres. Franklin D. Roosevelt, has been released by the post office. The stamp is of special delivery size and printed in blue.

file, pays only one fee for all tickets. The fee for the attorney general is \$280.

Filing fee for congress and the state board of equalization is \$100 for each ticket and the number of sponsors is not less than 40 or more than 60.

or more than 30 sponsors are required for members of the state legislature.

OLD SAN FRANCISCO LANDMARK RAZED FOR NEW BUILDING

SAN FRANCISCO—One of the first permanent structures to rise from the ashes of the 1906 fire in down. It is the Babcock Building on the northwest corner of Sansome and California streets. A five story office building will replace it.

COUNTY G. O. P. WILL HAVE SESSION NEXT MONTH FOR CANVASS

GRASS VALLEY—Nevada county Republicans will open their 1946 election campaign in Grass Valley on Sunday, February 10. The plans were outlined this week by Paul Ulrich, Chicago Park orchardist and chairman of the Republican county central committee.

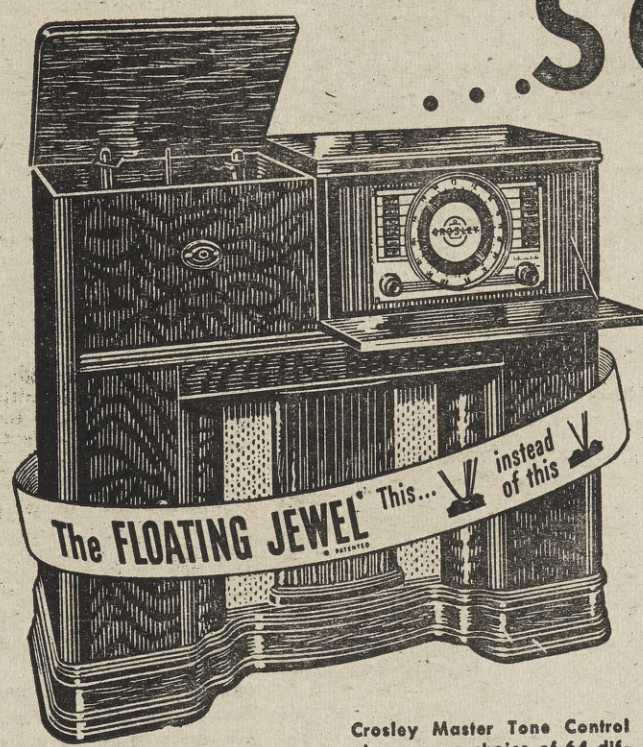

Prior to the dinner meeting which is to be held in the Bret Harte Inn, group meeting during the afternoon will be held to discuss various problems confronting the party, both internally and internationally.

At the dinner Mrs. Jessie Williamson of Berkeley, national Republican committeewoman from California, will be the principal speaker.

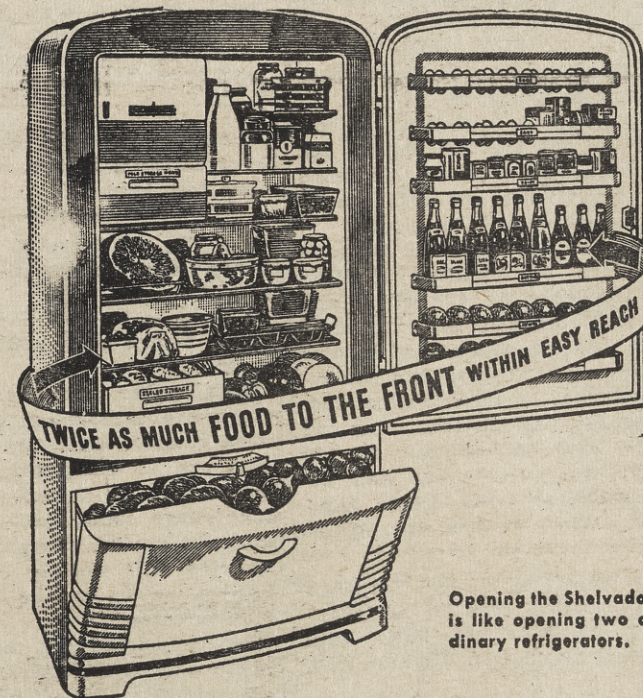

Auto Thefts Show Big Boost Over Prior Year

Automobile thefts have risen more than 26 per cent, reports the California State Automobile Association, analyzing FBI figures for the nation. Motorists are urged to protect their cars from possible theft at all times.

Walker Pass, established in 1835, was the first pass across the Sierra from the east.

Politically Speaking

By Lloyd Latham
United Press Staff Correspondent

SACRAMENTO, Jan. 24 —(U.P.)— Attorney General Robert W. Kenny seems to have maneuvered himself, whether he actually wanted to or not, into the position where he has to run on the Democratic ticket for governor.

His last chance to avoid the candidacy apparently disappeared the other day when U. S. Senator Sheridan Downey definitely took himself out of the race. Kenny had been promoting Downey's candidacy but, the story is, Downey wasn't acceptable to the CIO. So that put Kenny in the position of making the race or relinquishing his top position in the Democratic party in the state. And, he is hardly the type who wants to take a back seat.

Kenny refused to say whether he would run when asked to comment on Downey's withdrawal. But recent reports are that he will accept a "draft" movement, and party officials seem more than ready to provide the movement.

Assemblyman Alfred W. Robertson, the Democratic floor leader in the assembly and vice chairman of the state party organization, had this to

say: "If a draft or ground swell is wanted, we will give it to him—and then some. The Democratic party really wants him."

There might be some sort of rule worked out of all this for predicting what Kenny is going to do—that it, that it will be the opposite of what he says in non-election years.

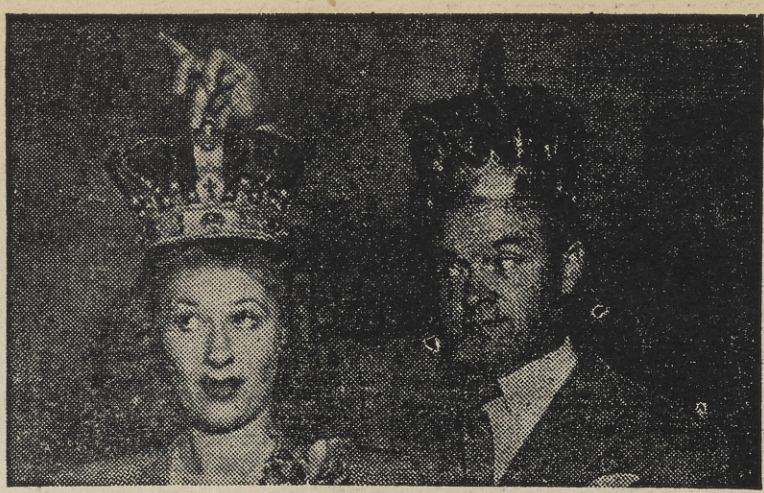

Anyway, he announced himself for governor early in 1942 and swore he would stay in the race. Then he pulled out. Last year he kept insisting he wanted to run again for attorney general, and now seems to be a clinch candidate for governor.

Kenny's chances for election, of course, have to be considered in connection with his opposition, which is sure to be Gov. Earl Warren. The governor is an avowed candidate for reelection.

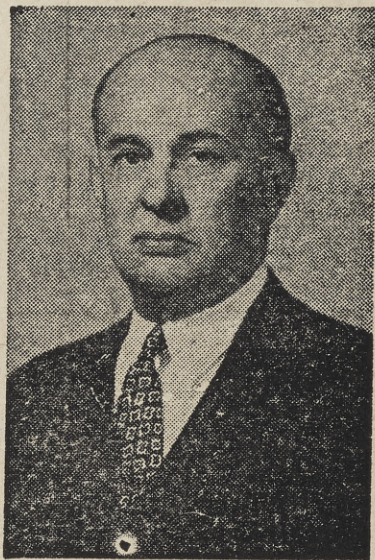

Liberal groups contend that Kenny is a clinch, and attempt to make much of Warren's lack of success in getting progressive measures through the legislature.

However, Warren's supporters argue that the fact he has proposed liberal legislation will get him a big "middle of the road" vote. They say that the opposition the governor has encountered from conservative groups—using the recent state chamber of commerce attack on his legislative program as an example—has just about insured his reelection.

Kenny may get the vote the CIO and its Political Action Committee is able to turn out but Warren has been making a studied effort to make friends in the AFL. On the other hand, if State Senator John Shelley,

"KING AND QUEEN OF COMEDY" . . . Bob Hope and Joan Davis have just been named "King and Queen of Comedy" in a poll of over 600 radio editors taken by motion picture daily magazine. This is the fifth year that Hope has won the award and the third year for Miss Davis.

A. T. MERCIER

S. F. TO PORTLAND DAYLIGHT PLANS TOLD BY S.P. HEAD

Southern Pacific will place a pair of de luxe Diesel-powered daytime streamliners in daily service between San Francisco and Portland, according to A. T. Mercier, president of the railroad. They will be called the Shasta Daylights.

Plans were also revealed for progressive streamlining of the Cascades, premier sleeping car trains on the same route.

It is the aim to have the new super coach trains in service by the end of the year, and the company hopes the new Cascade equipment can begin arriving early in 1947.

The Shasta Daylights will leave San Francisco and Portland in the morning and reach their destinations in the late evening, operating via the fast Cascade line of the Shasta route. In announcing these coach streamliners, Mercier said: "We have given our ideas to designers of the car building companies and they are now working out the technical details and specifications. As soon as this information is available and bids can be made, the orders will be placed."

The Shasta Daylights will be post-war editions of Southern Pacific's famous Daylights on the coast and valley runs between San Francisco and Los Angeles, which have become widely known as "everybody's streamliners" because of their low-cost luxury trips. Each of the new trains will have 14 cars in addition to the Diesel-electric power units, and besides the coaches, will include baggage car, diner, kitchen car, coffee

who is president of the San Francisco AFL organization, runs for lieutenant governor on a ticket basis with Kenny, that may lessen Warren's AFL support.

The contest between Kenny and Warren can be considered officially opened when Kenny makes his first direct criticism of the governor. The two men have worked together and Kenny has refrained from any attack so far on Warren. But, that can't continue if they are going to run for the same office.

Saving and Spending

ONE who examines his thought may be surprised to note the amount of mental mileage devoted to saving and spending as related to meeting the human need. In fact, many mortals seem to carry on a perpetual conversation with themselves as to what they shall spend and what they shall not spend, how much they shall save and how much they wish they could save.

Here someone may interpose: "Are you implying that saving and spending are not worthy of considerable thought and attention? Surely these are important human activities and should have careful consideration."

The problem of meeting human needs certainly merits careful, even prayerful thought, but never is there reason for fearful or anxious thought taking. It is important to happiness to understand that the human need is met through spiritual understanding, through intelligent faith in God, rather than through mere money-making and spending or human planning, however detailed. Christ Jesus gave the perfect rule for meeting human needs when he said (Matthew 6:33), "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you."

Jesus set an example of loving and compassionate meeting of human needs, yet how little is said in the Gospels about saving and spending. On one occasion, after feeding a multitude, the Master recommended that the fragments of loaves and fishes be gathered in order that nothing should be lost. Here was an example of thrift worthy of emulation in the affairs of families and of nations. In Jesus' words and works there was never an instance of fearful thought taking for the human need, never a hint of selfish or thoughtless spending. He was aware of the care of his heavenly Father and knew that man's need is met

Numerals on the clock of the Ferry Building in San Francisco are three feet long.

The City of Azusa in Los Angeles county was incorporated December 28, 1898.

shop, tavern car and observation-parlor car.

With further reference to plans for progressive streamlining of the Cascades, Mercier said: "As soon as designs can be completed, orders will be placed for luxurious three-car diner-lounge units, exclusive to the Southern Pacific. Streamlined sleeping cars will also be added when such equipment can be delivered by manufacturers."

Mercier pointed out that Southern Pacific started an extensive improvement program long before the war, which was carried steadily forward, even during the depression years. "The war stopped all construction of passenger equipment," he continued. "We are now stepping ahead again. There will be other improvements over our system, which we expect to be able to announce from time to time in the near future."

LOS ANGELES JUDGE IS TO BE CANDIDATE FOR STATE OFFICE

Superior Judge Goodwin J. Knight of Los Angeles this week announced his candidacy for election as lieutenant governor of California. Judge Knight has served in the Los Angeles county superior court since 1935, having been reelected in 1936 and 1942 without opposition. During his judicial career, he has heard more than 7,000 cases and his decisions have been reversed by the higher courts less than 14 times.

A graduate of Stanford University, he attended Cornell. He served in the Navy in World War I and has been active in veteran and civic affairs. He is a member of the Republican party.

Judge Knight is 49 years old and has lived in Los Angeles county for 45 years. He is married and has two daughters.

IT PAYS TO ADVERTISE!

through conscious unity with God, his divine source.

The belief that good comes either of saving or of spending is the basic error underlying limitation. God, the author of all good, constantly blesses his children. Good is always at hand and is not to be had through spending or through saving money or bodily energy or any material commodity. We may well spend righteous effort in gaining an understanding of God, and likewise we may well save, untouched by the world, our natural heritage of purity, childlikeness, and grace. Thus we place both saving and spending in the spiritually mental realm and open the way for a higher sense of supply and freedom.

Foolish spending and fearful saving both evidence the belief that matter is substance and that supply is material instead of spiritual. Since Spirit is ever-present substance, the proverbial rainy day can never come. One might better save for a sunny day than for a rainy one.

Wisdom in the use of what we have is essential to progress. Mary Baker Eddy writes in "Miscellaneous Writings" (p. 283), "Wisdom in human action begins with what is nearest right under the circumstances, and thence achieves the absolute." It is certainly nearer right to save money for humanitarian effort than to spend foolishly on things not needed. However, the highest wisdom is constantly to seek a higher understanding of God and daily to demonstrate that understanding in higher and holier lives. Living close to God we minimize the demands of materiality and increase our joyous demands on divine Love for sustenance. Those demands are met. Says the apostle (James 1:17), "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning."—The Christian Science Monitor.

FISH LAW CHANGES BEING OPPOSED BY NORTHERN GROUPS

SACRAMENTO, Jan. 24 —(U.P.)— The changes in existing fish and game laws proposed by southern California clubs will be opposed by the Northern California Sportsmen's Association when the fish and game commission hold final hearings in Los Angeles January 28 thru 30.

The northern association will send two delegates to the meeting, and have issued a call to sportsmen to write Emil J. N. Ott, executive secretary of the commission, to stop the changes.

The controversy centers around the move by the southern group to change the bag limit for brook trout from 25 to 15 pounds, or 10 pounds and one fish, and set back the opening of the season from May 1 to May 31. They also seek to prohibit bait fishing in the Sacramento river from Keswick Dam to a point below Red Bluff, on Lava creek to its mouth and on Pit River from No. 5 powerhouse seven miles downstream.

Judge Jones Endorse Detention Home Plan

NEVADA CITY— Superior Judge George L. Jones has endorsed a plan seeking a joint Nevada-Yuba-Sutter county detention home. Judge Arthur Coats of Sutter county is sponsoring the proposal, while Judge Warren Steel of Yuba county is withholding a statement pending more complete study of the plan.

During the 1944-45 season, California produced 17,702,612 gallons of sardine oil.

More than 5000 different kinds of plants flourish in the 1017 acres of San Francisco's Golden Gate Park.

Heavens to Betsy...wouldn't it be awesome if your water heater quit you cold? Here are four ways, however, to pamper the old dear to keep him happily and faithfully yours for a long time.

1. CUT DOWN ON WASTEFUL USE OF HOT WATER. Think before you draw even a quart or two of hot water. Was it necessary? Make it snappy when you take a shower. Rinse dishes in a pan...NOT under a running faucet. Use less hot water for a tub bath.

2. DRAIN YOUR WATER HEATER REGULARLY. To drain, open the valve on your heater and run water into a bucket until clear of sediment. That's all.

3. KEEP YOUR WATER HEATER CLEAN. Brush off the burner occasionally.

4. DO NOT HEAT WATER TOO HOT! If your water heater has an adjustable thermostat, set it to 120 degrees. It will be easier on your plumbing, too. Remember, if your plumber or repair man only when absolutely necessary. They are busy people these days.

ELECTRICITY IS CHEAP — USE MORE OF IT

MY PLACE in the SUN

by DOUG BARRETT

The argument that "no one here is interested in winter sports for Truckee anyway" was laid away without a mourner last Thursday night, when between 30 and 40 young blades and bells staged a moonlight skiing party. They had the benefit of a full moon and a roaring fire at Long Hill to add to their festivities. This party was organized just for the fun of it and the mission, as far as I can find, was successful from all standpoints with no casualties. However, it was a portent of what could be done with a sustained and adequately backed civic winter sports program. It might not do too much good this season but this isn't — I hope — the year of Judgment. Next year we should have a firm foundation on which to build a winter sports program. It's time the chamber of commerce or some other civic group took up this project with something more than air to sustain it.

Presidential Quiz

By Major Wm. G. Murdock

1. Which President's only son was killed in a railroad accident a few weeks before his inauguration?
2. Which President had a son who served in the marines during World War I?
3. Which Vice President was part Indian and always prided himself on the fact that his ancestor was a really true American?
4. Which President hired a substitute during the Civil war?
5. What President studied medicine but did not put his knowledge to great use or practice?

Answers

1. Franklin Pierce's son was killed in the presence of Mrs. Pierce.
2. Grover Cleveland's son, Richard, was in the marines.
3. Charles Curtis was part Kaw, and lived on the Kaw reservation when he was a boy.
4. Grover Cleveland.
5. William Henry Harrison studied medicine.

Titus and Vern Shattuck circling Truckee and Gateway in a flying machine on Sunday aft.

HELICOPTER WINS OUT OVER SNOW... The snow avalanche which buried the Buffalo area didn't bother Floyd W. Carlson. He brushed the snow from his helicopter parked in Williamsville, N. Y., and 12 minutes and 15 miles later arrived at Bell aircraft plant, where he is a test pilot. When he returned, he landed in the same spot. No shoveling, no pushing, no strap hanging and no swearing. A perfect day thanks to helicopter.

Federal Funds for State Highways Are Available

SACRAMENTO—Federal authorities have made immediately available to California \$22,303,236 for the construction of highways, farm-to-market roads and streets in cities of more than 5000 population, state officials announced this week.

California's present overall postwar highway construction is estimated to cost \$114,451,000, with about one-fifth of this sum in additional projects already being planned.

The Federal allocation was made from \$500,000,000 authorized for the first postwar year under the three year \$1,500,000,000 government highway program. California's division is made for three specific purposes: United States numbered highways, \$9,018,749; secondary or feeder roads, \$1,162,254; urban streets, \$8,122,233.

In most states, the Federal funds must be matched 50-50 by the state; however, because of the public land law in California, the Federal share of the total cost is 58.23 per cent. Funds, if properly matched, may be used any time during the next 18 months.

If head hair were never cut or singed it could conceivably grow to the length of 35 feet.

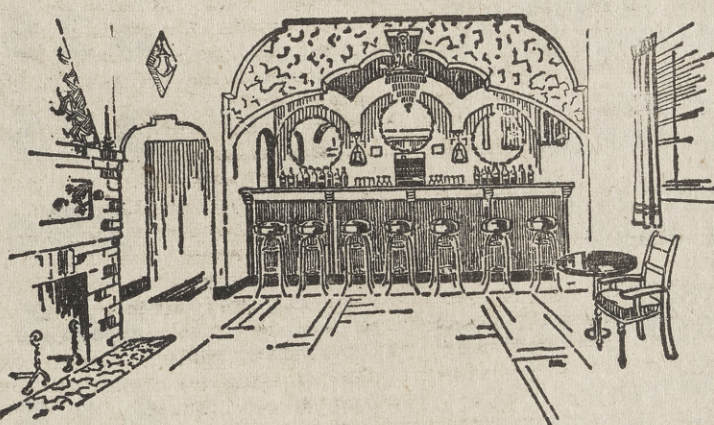

Engle Is Speaker At Colorado Mining Meet

WASHINGTON—Discussing pending legislation involving the gold mining industry, Rep. Clair Engle will be one of the principal speakers at the annual meeting of the Colorado Mining Association in Denver on Jan. 24-26. Mining representatives from the entire west have been invited and Neil O'Donnell of Grass Valley will represent California mining interests at the session.

New Fire Extinguishers

Our school is now equipped with new type permanent fire extinguishers this week. One is placed in the laboratory, one in the domestic science room and one in the office.

Movies Are Shown

James Firth, public relations and educational director for Standard Oil Company, showed our school some educational movies last week. One was on plant life, one on animal life, one football picture of the Army-Navy game, and one picture dealt with mountain climbing in Wyoming. Most of the pictures were in technicolor. Firth promised to come back with more pictures in April.

Borrow Books

Two University of California girls, skiing in Truckee and unable to return on schedule, borrowed Spanish and chemistry books from the high school Monday.

New Courses Given

The new semester started Monday with the addition of three new courses—hygiene, compulsory to all freshmen; Latin and psychology.

Plan To Ski

Some of our boys are planning to take part in the annual ski meet to be held at the Sugar Bowl in March.

Visit Telephone Office

The general science class visited the telephone office as a class project Monday. Five hundred word essays on the operation of a switch board will be required as a result of the visit.

Snow Removal Is Topic At Session of Engineers

Clyde J. Gorman of the information branch of the Sacramento district of the army engineers discussed experiences of snow removal crews in the high Sierra at a meeting of the Sacramento section of the American Society of Civil Engineers in the capital city. N. R. Bangert, assistant maintenance engineer for the state division of highways, gave a resume of the technical aspects of snow removal.

SENATOR KNOWLAND TAKES POSITION ON STATE DIMES MARCH

U. S. Senator William F. Knowland has accepted the post of state vice chairman in the current March of Dimes appeal, Dan Marovich, director of northern California, announced today.

Knowland, who until recently spent several months overseas with the army, notified Marovich that he was "very pleased with the appointment."

The senator called upon all county chairmen to redouble their efforts in raising funds to continue the fight against polio.

"There were serious epidemics of polio in California last year, and we are faced with the same threat during the summer months ahead. The success of your work will determine how well prepared we will be to meet any emergency," Knowland said.

Prior to his induction into the armed forces in June, 1942, Knowland was assistant publisher of the Oakland Tribune.

Half of the money to be raised will remain in the individual counties, said Knowland, to provide care and hospitalization for the victims of polio where financial assistance is necessary. The remainder will be forwarded to the National Foundation for purposes of scientific research.

Knowland pointed out that part of the sum forwarded to the national will be spent for emergency epidemic aid. He added that last year the foundation came to the immediate aid of three northern California counties where local funds had been exhausted in battling polio epidemics.

Knowland urged all citizens to support the appeal. March of Dimes containers are on display in many places of business. Any wishing to do so may make their contributions directly to March of Dimes headquarters in their community.

Masons, Knights To Hold Meeting During Week

Two local lodges are slated to hold important meetings this week. Tonight, Truckee Lodge No. 200, F. and A. M., will hold installation of officers, according to Secretary V. L. Deaton. Friday night Summit Lodge No. 54, Knights of Pythias, will meet with the officers installed at the last meeting taking charge of the lodge.

At County Seat—

Mrs. Edith Fay and Mrs. George Kamp were business visitors in Nevada City on Wednesday. Laurence Zoebel accompanied them.

To Arrive Here—

Marion O. Follett, who was recently discharged from the Navy, will arrive here Saturday with his wife and small daughter.

San Francisco averages 22 inches of rain annually, 66 per cent of all possible sunshine.
